

IVYWILD CITIZENS SEEK PROTECTION FROM FIRE

Mass Meeting to Be Held Tuesday
Night at Which Important Matter
Will Be Taken Up

The citizens of Ivywild will hold a mass meeting Tuesday night in Ivywild chapel, at which steps will be taken to organize an improvement society. The matter of fire protection has been much discussed this winter, owing to the fact that there has been more than one fire in the suburb which resulted in the destruction of property that might have been averted with adequate fire apparatus, even though it were operated under a volunteer system.

City and county officials will be given special invitations to be present at the meeting, and there will be a number of addresses. C. S. Robbins and C. E. Maddox will preside at the meeting.
